Overview

System and Program Indicator Reports are published quarterly and furnished to CSB trustees and the Continuum of Care. All reports are posted to www.csb.org. Results are also shared with CSB funders consistent with funding contracts and agreements.

The System and Program Indicator Report monitors the current CSB funded programs and some non-CSB funded programs that participate in our data system. The report evaluates each system and program based on a system or program goal, actual performance data, variances, and outcome achievements. Outcome achievement is defined as 90% or better of numerical goal or within 5 percentage points of a percentage goal, except where a lesser or greater value than this variance also indicates an achieved goal. Systems or programs which meet less than one-half of outcome goals are considered to be a “program of concern”. The following key is used to express outcome achievement status for each indicator:

Outcome Achievement:	Key
Outcome achieved	√
Outcome not achieved	≠
Outcome goal not applicable	N/A

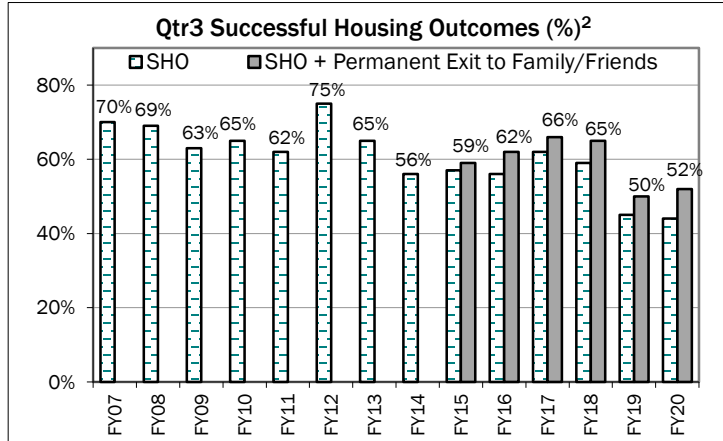

All data generated from the Columbus ServicePoint (CSP) and used in the report met CSB quality assurance standards, which require current and accurate data and a 95% completion rate for all required CSP data variables.

Data included in the report is analyzed per the Evaluation Definitions and Methodology document that can be found at www.csb.org under the Publications section.

Eight percent less households needed shelter compared to the same period of last fiscal year. The success rate at exit from shelters increased 2 percentage points, but remained low, impacted by the high number of families served and the difficult housing environment, which also impacted the average length of shelter stay that increased to 54 days. The employment rate at entry decreased from the FY19 rate of 40% to 36% currently, coupled with a slight decrease in average income (FY19 \$768). An additional 9 families stayed in the Overnight shelter program only, waiting for a face-to-face shelter eligibility assessment. These families were subsequently either diverted from shelter or self-exited.

¹ Overflow capacity is not included.
² Starting 7/1/15, Successful Housing Outcomes include permanent exits to family. Starting 7/1/18, Successful Housing Outcomes include permanent exits to friends.
